Welcome to SET Series of Work Shops:

SDC Education Transformation is an ecosystem dedicated to conducting industry-relevant workshops. Our hands-on approach supplements academic learning, empowering students with practical skills beyond the curriculum and supporting Curricular Practical Training (CPT) opportunities.

We encourage student-led workshops, providing full support from topic selection to preparation. Each workshop concludes with a capstone project, allowing participants to apply their knowledge.

Upon completion, participants receive recognition through awards and certificates, enhancing their professional credentials. Join us in redefining education and shaping future industry leaders.

OBJECTIVES OF THE SDG WORKSHOP

1. Create Awareness and Understanding

- Introduce participants to the 17 Sustainable Development Goals and their significance.
- Clarify the global, national, and local relevance of each goal.

2. Promote Critical Thinking and Engagement

- Encourage participants to think critically about global challenges such as poverty, climate change, inequality, and sustainable development.
- Discuss the interconnectivity between the goals.

3. Encourage Stakeholder Participation

- Highlight the roles of individuals, communities, governments, and organizations in achieving the SDGs.
- Facilitate dialogue and collaboration between stakeholders from different sectors.

4. Foster Local Action and Implementation

- Enable participants to identify ways to contribute to the SDGs in their own communities or institutions.
- Encourage the development of action plans, projects, or initiatives aligned with the SDGs.

5. Build Capacity for Advocacy and Leadership

- Equip participants with tools, strategies, and knowledge to become SDG advocates or leaders.
- Promote youth involvement and grassroots participation.

6. Integrate SDGs into Education and Professional Practice

- Demonstrate how the SDGs can be embedded into curricula, research, and everyday work.

7. Monitor and Evaluate Progress

- Share methods to track and assess contributions toward the goals.
- Emphasize the importance of data, reporting, and accountability

Seminar on
SDG

SUSTAINABLE DEVELOPMENT GOALS (SDG)

16th April '25 9:30 AM Block 4, 4312

Objectives:

This seminar on SDGs will give you a strong understanding of global challenges and inspire ideas for real-world solutions.

Following this, you can join the upcoming hackathon to turn those ideas into impactful projects.

It's a great chance to learn, innovate, and contribute to sustainable development.

Convenor: Dr.Ch.Usha Kumari
Professor, HoD, Dept. of ECE.
